EXPERIENCE

Texts.com, New York, NY

May 2015-January 2016

Junior Developer

- Focused on JavaScript while learning and working with React Native and ReactJS
- Gave regular updates on progress, stayed organized, and met deadlines
- Paired and worked independently to create and release Version 1.0 of the iOS app using React Native
- Created and published a comparable Version 1.0 React Native [Android app](#)

Piedmont Bark, Atlanta, GA

2012-2013

Kennel Technician

- Supervised and interacted with 100+ dogs a day while working both as a member of a team and independently
- Utilized attention to detail in order to properly observe and assess behavior, and act accordingly
- Prioritized and organized tasks and adapted to last minute changes while managing large groups of animals

PROJECTS

- **SkyCast** ([source](#)) | Find the current and weekly weather plus a bit of historic data.
Built with: *JavaScript/ReactJS, HTML, CSS, Forecast.io & Google Maps API, Highcharts*
- **Simple Name Generator** ([source](#)) | Generate first and last names for character inspiration.
Built with: *JavaScript/ReactJS, HTML, CSS*
- **PackSnap** ([source](#)) | Travel app to help users find and suggest items to pack for future trips.
Built with: *Ruby, Rails, JavaScript, and Google Maps, Forecast.io, and Amazon APIs*
 - Mapped out tables and associations; Wireframed the project and used TDD
