EXPERIENCE

Texts.com, New York, NY   May 2015-January 2016
Junior Developer
- Focused on JavaScript while learning and working with React Native and ReactJS
- Gave regular updates on progress, stayed organized, and met deadlines
- Paired and worked independently to create and release Version 1.0 of the iOS app using React Native
- Created and published a comparable Version 1.0 React Native Android app

Piedmont Bark, Atlanta, GA   2012-2013
Kennel Technician
- Supervised and interacted with 100+ dogs a day while working both as a member of a team and independently

PROJECTS

Web Developer   2014
Freelance

PackSnap | (source)
A visual travel app, focusing on UX/UI, that lets users find and suggest unique items to pack for future trips.
- Built with: *Ruby, Rails, JavaScript (jQuery, AJAX), and Google Maps, Forecast.io, and Amazon APIs*
  - Mapped out the tables and associations, and kept the diagram updated in order to prevent confusion as the app was being developed
  - Wireframed the project and used Test Driven Development while building the app by using RSpec

Fat Princess | (source)
A game in which a princess is controlled through Mousetrap key calls and eats cake and carrots, which make her grow and gain points, and shrink and lose lives, respectively.
- Built with: *JavaScript (jQuery)*
  - Worked on front end appearance and the movements of the princess, carrots, and cake

EDUCATION

Dev Bootcamp, New York, NY   December 2014
Web development program with 9 weeks of remote self-study and 9 weeks of immersive study at DBC's New York location.

Hobart & William Smith Colleges, Geneva, NY   May 2014
Bachelor of Arts in Asian Studies (*GPA: 3.64*)
Minor: Studio Art

Yonsei University, Seoul, South Korea   February-June 2013
HWS Study Abroad Program
